TOURISM in YERCAUD

Yercaud Lake

The Yercaud Lake with a picturesque pool surrounded by gardens and well-wooded trees are the first things that attract a visitor. The garden surrounding the lake is well groomed and best seen during the month of May when the Summer Festival is organised.

Lady's Seat

One of the best views that Yercaud promises. You get a panoramic view of the ghats and all the distant vehicles dwindling their way in and out of trees along the winding ghat road. It surely is a breath-taking view. You can have a closer view of the plains below with the help of the telescope mounted at the Lady's Seat.

This view is spectacular at night with the twinkling lights of Salem town in sight. It gives a feeling of looking over a bed of twinkling diamonds and if You are lucky to have a moonlit night..nothing could be more romantic!

Yercaud is a lesser-known hill station when compared to Ooty and Kodaikanal. Yercaud is situated at an altitude of 1,500 metres (4,920 feet), on the Shevaroy hills of the Eastern Ghats. The lofty hills are of extraordinary scenic beauty endowed with a salubrious climate. Although close (33-km) to the bustling industrial town of Salem, Yercaud has a spirited charm of its own.
